

Kits & Packages

A standard straight module kit and a standard corner module kit (less skyboard) and Kato Unitrack track packages (to suit two straight modules or one double-length module and the corner module) are available. The Kato Unitrack Rerailer #24-000, which doubles as a track spacing tool, is also available from the track package supplier.

KITS

The kits are available from John Rumming in Western Australia.

Straight Module Kit

Corner Module Kit

2 x Straight Module Kit plus

4 x Corner Module Kit

Beginner's Kit Set

The material is precision cut, so the pieces can be easily glued together. The corner blocks enable the module to be kept square. All hardware is supplied; only wood glue and a hammer are the things required to finish the module. Instructions are included.

TRACK PACKS

A Kato track pack to suit the straight module is available from Aust-N-Rail. The pack includes track for two straight modules. Price is \$17.60 plus PP *(as at July 2008)*.

A Kato track pack to suit the standard corner module is also available from Aust-N-Rail. Price is \$19.80 plus PP *(as at July 2008)*.

Additional details at the Aust-N-Rail website: www.aust-n-rail.com.au

May be purchased directly from Aust-N-Rail in Victoria: Aust-N-Rail
OR ordered via the website PO Box 704
SEYMOUR VIC 3661

KATO TRACK SPACING TOOL (an essential item for getting the track spacing correct)

The rerailer in the Kato Rerailer and Unijoiner Tool set (#24-000) has notches in the side that fit the rail tops and are the correct distance for track separation. May be purchased directly from Aust-N-Rail or separately from a Kato products supplier. RRP is \$2.75 *(as at July 2008)*.
